MERIT MEDICAL®

DESIGNED FOR COMFORT & ACCURACY

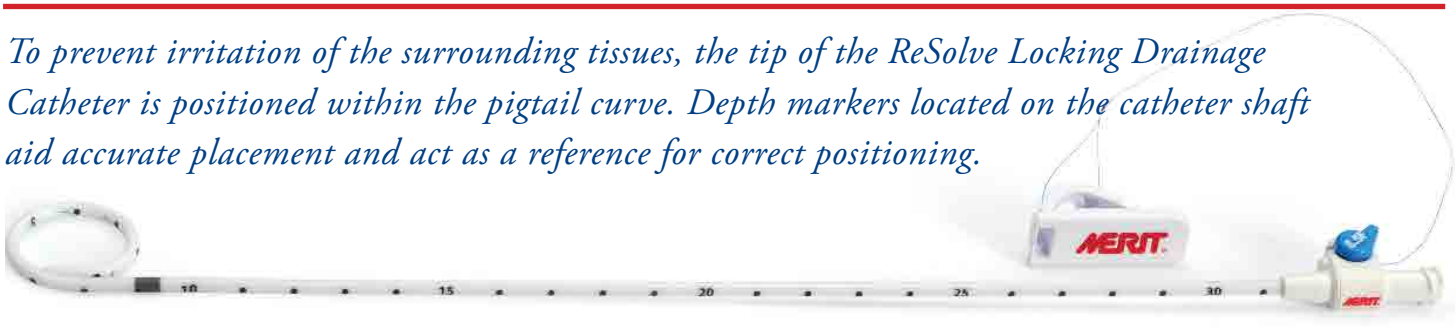
ReSolve®

LOCKING DRAINAGE CATHETER

ReSolve®

LOCKING DRAINAGE CATHETER

To prevent irritation of the surrounding tissues, the tip of the ReSolve Locking Drainage Catheter is positioned within the pigtail curve. Depth markers located on the catheter shaft aid accurate placement and act as a reference for correct positioning.



Features and Benefits

Accurate placement
Depth markers aid in accurate placement and act as a reference for correct positioning.

Atraumatic
Catheter tip positioned within pigtail curve to reduce tissue irritation.

Ease of Insertion
Tapered tip and hydrophilic coating facilitate a smooth introduction to reduce patient discomfort.

Catheter Security
The unique design makes it easy to engage the locking mechanism with one hand and is also tamper resistant. The low profile of the locking mechanism and hub are designed to provide patient comfort.

Drainage Efficiency
The large drainage holes maximize drainage while maintaining catheter patency.

High Visibility
Radiopaque platinum marker band incorporated into the catheter wall for visualizing the most proximal drainage hole.

Easy Identification
Color-coded catheter hubs and packaging make it easy to determine the French size for initial placements and catheter exchanges.

Ordering Information

Catalog Number	French Size	Working Length	Marker Band	Hub Color	Drainage Holes
RLC15-6-038MB	6.5F	15 cm	Yes	Green	8
