

STREAMLINE VEIN CLOSURE

CUSTOM & STANDARD PROCEDURAL KITS

VARICOSE VEIN CLOSURE

TUMESCENT DELIVERY SYSTEM

Each kit contains a proprietary syringe to help streamline procedural tasks and controlled delivery of Tumescent with less hand fatigue. A proprietary valved system allows administration of Tumescent while maintaining access to the Tumescent source.

Merit Medical can help streamline vein closure procedures, improve efficiency, and save money!

CUSTOM AND STANDARD PROCEDURAL KITS

- Combines clinical tools in one convenient package
- Increases procedural productivity
- Maximizes ordering and inventory convenience
- Reduces procedural cost, as a result of ordering multiple items together

MERIT MAK - MINI ACCESS KIT

Facilitates gradual sizing from a small access puncture, to a larger catheter. A 21 gauge needle minimizes patient trauma and bleeding. Multiple kit configurations are available.

Merit Medical Systems, Inc. is a full line supplier of standard procedural products as well as custom procedural kits.
