

# BrachyBytes®

A Standard of Care Option for Breast Coserving Therapy.

## New Clinical Data: Retrospective Review of Three-Fractioned Accelerated Partial Breast Irradiation

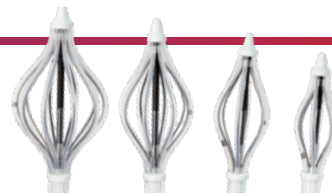

The University of California San Diego recently published their follow up on Three-fraction APBI. Their data represents the longest period of follow up for this approach, with 19 of their 30 patients enrolled in the original Triumph-T study. Oncologic, patient and cosmetic outcomes were very favorable.

- The study concludes that abbreviated schedules of APBI brachytherapy have the potential to improve access to care and quality of life for breast cancer patients needing radiation therapy and may become a feasible treatment alternative. This study demonstrates the safety and efficacy of the three-fraction breast brachytherapy for partial breast irradiation **over a longer period** than prior publications.
- The ability to perform complete adjuvant radiation treatment within two days has significant advantages in patient quality of life, convenience, and access to care, especially for patients that have difficulty getting to their treatment center. It also **expanded the use of brachytherapy to those at increased risk of infection**, such as diabetics, that were excluded from brachytherapy with 5–7 days of an indwelling device.
- The increased efficiency of abbreviated schedules **may provide the opportunity** for medical institutions to perform breast radiation on an increased number of women, leading to improved breast cancer care.

SAVI Start of Summer Promotion

**10%**  
**DISCOUNT**

Merit Oncology is offering a Start of Summer discount on SAVI Catheters! During the month of June, SAVI customers will receive a 10% discount on all SAVI Catheters! (Minimum order of five (5) catheters required for discount pricing to apply.)

Please contact your Merit Representative for more information and to take advantage of this discount.

## SEE YOU AT THE 2022 Annual American Brachytherapy Society!

We are looking forward to seeing you at the 2022 Annual American Brachytherapy Society at the Gaylord Rockies Resort in Denver, CO. Come visit **Merit Oncology at Booth #7 from June 17-19th** to learn more about SAVI Brachytherapy.

Interested in learning more about APBI? Watch *"Three Fraction Accelerated Partial Breast Irradiation (APBI) with SAVI"* featuring Dr. Cate Yashar and Dan Scanderbeg, PhD, from UC San Diego.
